

## Freemasons

### QUESTON

Hello Diana,

I've read a lot of negativity of Freemasons from conspiracy theorists, and I would like to know what you know of their current organisation and how they are contributing to the events in the spiritual world.

I ask this because someone close to me is a Freemason, and I want to know he's safe. :)

We saw you in Helsinki, Finland last month and absolutely loved having you at the Fair again. Thank you for visiting. :)

Love, Light & Joy,

Niina

### ANSWER

Dear Niina,

I am so glad you enjoyed my talk in Helsinki.

There is good and bad in all organisations. The Freemasons started as an organisation for the Light. Now there are a few esoteric branches doing great things for spirit. Many in the organisation however are interested in their own material advancement.

They have a great international network and it would help if you sent prayers for this to be used for the light.

As long as he uses common sense your friend will be safe.

With Love and Light,

Diana
